

Need a Great Headshot?

Use these tips to help:

- 1) Wear professional clothes in solid colors. Try to avoid patterns.
- 2) Have a solid background and natural lighting. Avoid using flash on your camera and turn off any room lights.
- 3) If you are using a camera phone, make sure that it is stable. Avoid using selfie-mode for a clearer image.
- 4) Take the headshot from the chest up
- 5) Position yourself at a slight angle and remember to smile!
- 6) Review your photos with a friend or family member to ensure you pick the best shot
